##### 2.1 Basis of presentation

##### Financial reporting standards

The condensed interim consolidated financial statements of the Group have been prepared in accordance with the Turkish Accounting Standards/Turkish Financial Reporting Standards, (“TAS/TFRS”) and interpretations as adopted in line with international standards by the Public Oversight Accounting and Auditing Standards Authority of Turkey (“POA”) in line with the communiqué numbered II-14.1 “Communiqué on the Principles of Financial Reporting In Capital Markets” (“the Communiqué”) announced by the Capital Markets Board of Turkey on June 13, 2013 which is published on Official Gazette numbered 28676. TAS/TFRS are updated in harmony with the changes and updates in International Financial and Accounting Standards (“IFRS”) by the communiqués announced.

For the period ended 31 March 2015, the Group prepared its condensed interim consolidated financial statements in accordance with the Turkish Accounting Standard No.34 Interim Financial Reporting. Condensed interim consolidated financial statements of the Group do not include all the information and disclosures required in the annual financial statements, therefore should be read in conjunction with the Group’s annual financial statements as of December 31, 2014.

With the decision taken on March 17, 2005, the CMB announced that, effective from January 1, 2005, the application of inflation accounting is no longer required for companies operating in Turkey. The Group has prepared its consolidated financial statements in accordance with this decision.

Consolidated financial statements have been prepared under the historical cost convention except for the derivative instruments and available for sale financial assets presented at fair values and revaluations related to the differences between carrying value and fair value of tangible and intangible assets arising from business combinations.

##### New and amended standards and interpretations

The accounting policies adopted in preparation of the condensed interim consolidated financial statements as of and for the period ended March 31, 2015 are applied consistently with the TAS/TFRS and interpretations. The new and amended standards and interpretations effective as of January 1, 2015 have no impact on the consolidated financial statements of the Group.

##### Standards issued but not yet effective and not early adopted

Standards, amendments and interpretations to existing standards that are issued but not yet effective up to the date of issuance of the condensed interim consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, after the new standards and interpretations become in effect.

#### NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

##### **IFRS 9 Financial Instruments – Classification and Measurement**

As amended in December 2012, the new standard is effective for annual periods beginning on or after January 1, 2015. First phase of this new IFRS introduces new requirements for classifying and measuring financial instruments. The amendments made to IFRS 9 will mainly affect the classification and measurement of financial assets and measurement of fair value option liabilities and requires that the change in fair value of a fair value option financial liability attributable to credit risk is presented under other comprehensive income. Early adoption is permitted. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

##### **Amendments to IAS 16 and IAS 38 – Clarification of Acceptable Methods of Depreciation and Amortization**

The amendments to IAS 16 Property, Plant and Equipment explicitly state that revenue-based methods of depreciation cannot be used for property, plant and equipment. The amendments to IAS 38 Intangible Assets introduce a rebuttable presumption that the use of revenue-based amortization methods for intangible assets is inappropriate. The amendments are effective for annual periods beginning on after 1 January 2016, and are to be applied prospectively. The amendments will not have an impact on the financial position or performance of the Group.

##### **Amendments to IFRS 11 – Accounting for Acquisition of Interests in Joint Operations**

The amendments clarify whether IFRS 3 Business Combinations applies when an entity acquires an interest in a joint operation that meets that standard’s definition of a business. The amendments require business combination accounting to be applied to acquisitions of interests in a joint operation that constitutes a business. The amendments apply prospectively for annual periods beginning on or after 1 January 2016. Early adoption is permitted. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

##### **Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)**

The amendments address the conflict between the existing guidance on consolidation and equity accounting. The amendments require the full gain to be recognized when the assets transferred meet the definition of a “business” under IFRS 3 *Business Combinations*. The amendments apply prospectively for annual periods beginning on or after 1 January 2016. Early adoption is permitted. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

##### **Equity Method in Separate Financial Statements (Amendments to IAS 27)**

The amendments allow the use of the equity method in separate financial statements, and apply to the accounting not only for associates and joint ventures, but also for subsidiaries. The amendments apply retrospectively for annual periods beginning on or after 1 January 2016. Early adoption is permitted. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

**NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**TAS 1: Disclosure Initiative (Amendments to TAS 1)**

Amendments include narrow-focus improvements in the following five areas: Materiality, disaggregation and subtotals, notes structure, disclosure of accounting policies, presentation of items of other comprehensive income arising from equity accounted investments. The amendments are applicable for annual periods beginning on or after January 1, 2016. Earlier application is permitted. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

**TFRS 10, TFRS 12 and TAS 28: Investment Entities: Applying the Consolidation Exception (Amendments to TFRS 10 and TAS 28)**

Amendments to TFRS 10, TFRS 12 and TAS 28, to address the following issues that have arisen in applying the investment entities exception under TFRS 10 Consolidated Financial Statements; i) the exemption from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity, when the investment entity measures all of its subsidiaries at fair value, ii) only a subsidiary that is not an investment entity itself and provides support services to the investment entity is consolidated. All other subsidiaries of an investment entity are measured at fair value, iii) the amendments to TAS 28 Investments in Associates and Joint Ventures allow the investor, when applying the equity method, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries. The amendments are applicable for annual periods beginning on or after January 1, 2016. Earlier application is permitted. The amendments are applied retrospectively. However, when the first time the amendments to TFRS 10 are applied, the quantitative information required TAS 8 need only be presented for the annual period immediately preceding the date of initial application. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

***Annual Improvements – 2012–2014 Cycle***

Annual improvements issued for the effective standards “Annual Improvements to TFRS’s” are presented below. The amendments are effective as of January 1, 2016. Early adoption is permitted. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

***TFRS 5 Non-current Assets Held for Sale and Discontinued Operations***

The amendments clarify the requirements of TFRS 5 when an entity changes the method of disposal of an asset (or disposal group) and no longer meets the criteria to be classified as held-for-distribution.

***TFRS 7 Financial Instruments: Disclosures***

TFRS 7 is amended to clarify when servicing arrangement are in the scope of its disclosure requirements on continuing involvement in transferred financial assets in cases when they are derecognized in their entirety. TFRS 7 is also amended to clarify that the additional disclosures required by *Disclosures: Offsetting Financial Assets and Financial Liabilities (Amendments to TFRS 7)*.

***TAS 19 Employee Benefits***

TAS 19 has been amended to clarify that high-quality corporate bonds or government bonds used in determining the discount rate should be issued in the same currency in which the benefits are to be paid.

#### NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

##### *TAS 34 Interim Financial Reporting*

TAS 34 has been amended to clarify that certain disclosure, if they are not included in the notes to interim financial statements, may be disclosed “elsewhere in the interim financial report” – i.e. incorporated by cross-reference from the interim financial statements to another part of the interim financial report (e.g. management commentary or risk report).

##### **The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by POA**

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the consolidated financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adopted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

##### **Annual Improvements – 2010–2012 Cycle**

##### *IFRS 13 Fair Value Measurement*

As clarified in the Basis for Conclusions short-term receivables and payables with no stated interest rates can be held at invoice amounts when the effect of discounting is immaterial. The amendment is effective immediately.

##### **IFRS 9 Financial Instruments – Hedge Accounting and amendments to IFRS 9, IFRS 7 and IAS 39 -IFRS 9 (2013)**

In November 2013, the IASB issued a new version of IFRS 9, which includes the new hedge accounting requirements and some related amendments to IAS 39 and IFRS 7. Entities may make an accounting policy choice to continue to apply the hedge accounting requirements of IAS 39 for all of their hedging transactions. Further, the new standard removes the January 1, 2015 effective date of IFRS 9. The new version of IFRS 9 issued after IFRS 9 (2013) introduces the mandatory effective date of January 1, 2018 for IFRS 9, with early adoption permitted. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

##### **IFRS 15 – Revenue from Contracts with Customers**

In May 2014, the IASB issued IFRS 15 Revenue from Contracts with Customers. The new five-step model in the standard provides the recognition and measurement requirements of revenue. The standard applies to revenue from contracts with customers and provides a model for the sale of some non-financial assets that are not an output of the entity’s ordinary activities (e.g., the sale of property, plant and equipment or intangibles). IFRS 15 is effective for reporting periods beginning on or after January 1, 2017, with early adoption permitted. Entities will transition to the new standard following either a full retrospective approach or a modified retrospective approach. The modified retrospective approach would allow the standard to be applied beginning with the current period, with no restatement of the comparative periods, but additional disclosures are required. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

#### NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

##### IFRS 9 Financial Instruments - Final standard (2014)

In July 2014 the IASB published the final version of IFRS 9 Financial Instruments. The final version of IFRS 9 brings together the classification and measurement, impairment and hedge accounting phases of the IASB’s project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 is built on a logical, single classification and measurement approach for financial assets that reflects the business model in which they are managed and their cash flow characteristics. Built upon this is a forward-looking expected credit loss model that will result in more timely recognition of loan losses and is a single model that is applicable to all financial instruments subject to impairment accounting. In addition, IFRS 9 addresses the so-called ‘own credit’ issue, whereby banks and others book gains through profit or loss as a result of the value of their own debt falling due to a decrease in credit worthiness when they have elected to measure that debt at fair value. The Standard also includes an improved hedge accounting model to better link the economics of risk management with its accounting treatment. IFRS 9 is effective for annual periods beginning on or after 1 January 2018. However, the Standard is available for early application. In addition, the own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

##### IFRS 14 Regulatory Deferral Accounts

IASB has started a comprehensive project for Rate Regulated Activities in 2012. As part of the project, IASB published an interim standard to ease the transition to IFRS for rate regulated entities. The standard permits first time adopters of IFRS to continue using previous GAAP to account for regulatory deferral account balances. The interim standard is effective for financial reporting periods beginning on or after 1 January 2016, although early adoption is permitted. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

##### Functional and presentation currency

Items included in the financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (‘the functional currency’). The condensed interim consolidated financial statements are presented in TRY, which is the functional currency of Arçelik and the presentation currency of the Group.

##### Financial statements of subsidiaries operating in countries other than Turkey

Financial statements of subsidiaries operating in countries other than Turkey are adjusted to the TAS/IFRS promulgated by the POA to reflect the proper presentation and content. Subsidiaries’ assets and liabilities are translated into TRY from the foreign exchange rate at the reporting date and income and expenses are translated into TRY at the average foreign exchange rate. Exchange differences arising from the translation of the opening net assets and differences between the average and balance sheet date rates are included in the “currency translation difference” under the shareholders’ equity.

##### Consolidation principles

The condensed interim consolidated financial statements, which have been prepared in accordance with the principles disclosed in the annual consolidated financial statements for the year ended December 31, 2014, include the accounts of the parent company, Arçelik, and its Subsidiaries.

#### NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

##### Going concern

The Group prepared condensed interim consolidated financial statements in accordance with the going concern assumption.

##### Offsetting

Financial assets and liabilities are offset and reported in the net amount when there is a legally enforceable right or when there is an intention to settle the assets and liabilities on a net basis or realize the assets and settle the liabilities simultaneously.

##### Comparatives and restatement of prior periods’ financial statements

The condensed interim consolidated financial statements of the Group include comparative financial information to enable the determination of the trends in the financial position and performance. Comparative figures are reclassified, where necessary, to conform to changes in presentation in the current period condensed interim consolidated financial statements and the significant changes are explained.

For the period ended March 31, 2014, cash provided from incentives amounting to TRY 3,851 which was reported under cash flows from investing activities, is reclassified to cash flows from operating activities in consolidated cash flow statements. Foreign exchange gains/losses amounting to TRY 22,755 and other financial expenses amounting to TRY 2,870 which was reported under cash flows from operating activities is reclassified to cash flows from financing activities and currency translation differences amounting to TRY (12,448) and TRY (13,177) respectively. Dividend income from financial investments amounting to TRY 12,944 which was reported under cash flows from investing activities is reclassified to cash flows from operating activities.

#### 2.2 Restatement and errors in the accounting policies and estimates

Any change in the accounting policies resulted from the first time adoption of a new standards is made either retrospectively or prospectively in accordance with the transition requirements of the standards. Changes without any transition requirement, material changes in accounting policies or material errors are corrected, retrospectively by restating the prior period consolidated financial statements. If changes in accounting estimates are related to only one period, they are recognised in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

#### 2.3 Summary of significant accounting policies

The condensed interim consolidated financial statements of the Group for the three month period ended March 31, 2015 have been prepared in accordance with TAS 34 “Interim Financial Reporting”. Additionally, the accounting policies used in the preparation of the condensed interim consolidated financial statements for the period ended March 31, 2015 are consistent with those used in the preparation of annual consolidated financial statements for the year ended December 31, 2014. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2014.

**Contribution to shareholders’ equity related to the merger**

Contribution to shareholders’ equity related to the merger with Grundig Elektronik A.Ş. at June 30, 2009.

**Restricted reserves**

The Turkish Commercial Code (“TCC”) stipulates that the general legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group’s paid-in share capital. Other legal reserve is appropriated out of 10% of the distributable income after 5% dividend is paid to shareholders. Under the TCC, general legal reserves can only be used for compensating losses, continuing operations in severe conditions or preventing unemployment and taking actions for relieving its effects in case general legal reserves does not exceed half of paid-in capital or issued capital.

The details of these restricted reserves are as follows:

	<b>March 31, 2015</b>	<b>December 31, 2014</b>

NOTE 26 - TAX ASSETS AND LIABILITIES

	March 31, 2015	December 31, 2014
Corporation and income taxes	3,861	78,248
Prepaid tax	(603)	(60,094)
<b>Tax liabilities (net)</b>	<b>3,258</b>	<b>18,154</b>

Deferred tax liabilities	(229,498)	(245,422)
<b>Deferred tax liabilities, (net)</b>	<b>(150,951)</b>	<b>(168,069)</b>

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

The corporation tax rate is 20% in Turkey (December 31, 2014: 20%). Corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances.

Income tax expense for the years ended March 31 is as follows:

	January 1- March 31, 2015	January 1- March 31, 2014
<b>Tax expenses</b>		
- Current period tax expense	(4,153)	(28,056)
- Deferred tax	23,708	1,938
<b>Tax income/(expenses) (net)</b>	<b>19,555</b>	<b>(26,118)</b>

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between their statement of financial position accounts prepared in accordance with TAS/IFRS promulgated by POA Financial Reporting Standards and their statutory financial statements. These temporary differences usually result from the recognition of revenue and expenses in different reporting periods for TAS/IFRS and Tax Laws.

(\*) Gains arising from investments under incentive certificate are subject to corporate income tax at reduced rates being effective from the financial year which the investment starts to be operated partially or entirely till the period that investment reaches the contribution amount. In this context, as of March 31, 2015 the tax advantage of TRY 75,503 (December 31, 2014: TRY 23,959) in which the corporate income tax at reduced rates is determined by deducting accumulated depreciation in the calculation of the net value of property plant and equipment, from which the Company predicts to benefit in the foreseeable future is recognized as deferred tax asset in the consolidated financial statements and five year projections approved by the Company management are taken into consideration in the determination of related amount.

**NOTE 27 - EARNINGS PER SHARE**

Earnings per share disclosed in the consolidated statements of income are determined by dividing the net income per share by the weighted average number of shares that have been outstanding during the year.

The Companies can increase their share capital by making a pro-rata distribution of shares (“bonus shares”) to existing shareholders from retained earnings. In earnings per share calculation, this bonus share issuance is accepted as shares issued. Hence, weighted average stock share, which is used in the calculation of earnings per share, is acquired by retrospective application of bonus share issue.

Earnings per share and dividends paid in terms of share groups are as follows:

	<b>January 1- March 31, 2015</b>	<b>January 1- March 31, 2014</b>
Net income	141,532	131,161
Weighted average number of ordinary shares with nominal value (kurus 1 each one)	67,572,820,500	67,572,820,500

NOTE 29 - FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks, including the effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

*Hedging operations and derivative instruments*

*Liquidity Risk*

The risk of failure in settling financial liabilities is eliminated by managing the balance sheet and expected cash flows in harmony. In this context; the maturities of the financial liabilities are kept in line with the maturities of assets to eliminate any duration mismatch and in order to maintain short term liquidity, net working capital objectives are set and balance sheet ratios are aimed to be kept at particular levels.

Cash flow estimations for midterm and long term liquidity management of the Group are made by taking into account financial market and sector dynamics and cash flow cycle is observed and is tested by various scenarios.

**NOTE 29 - FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT  
(Continued)**

***Interest Rate Risk***

Changes in interest rates create significant risks over financial results with due to the impact on interest sensitive assets and liabilities. These exposures are managed with inter balance sheet methods by maintaining a balance in terms of amount and maturity between interest rate sensitive assets and liabilities and using derivative instruments when considered necessary.

In this context, matching of not only maturities of receivables and payables but also contractual re-pricing dates is crucial. In order to minimize the exposures to interest rate volatility, contractual re-pricing date of financial liabilities and receivables and “fixed interest/ floating interest”, “short-term/ long-term” balance within liabilities are structured coherently.

***Funding risk***

The ability to fund the existing and prospective debt requirements is managed by maintaining the availability of adequate committed funding lines from high quality lenders.

***Credit risk***

The Group is exposed to credit risk arising from receivables from credit financed sales and deposits with banks.

Credit risk of receivables from third parties is managed by securing receivables with collaterals covering receivables at the highest possible proportion. Methods used are as follows:

- Bank guarantees (guarantee letters, letter of credits etc.),
- Credit insurance (Global insurance policies, Eximbank and factoring insurance etc.),
- Mortgages,
- Cheques-notes negotiated.

In credit risk control, for the customers which are not secured with collaterals, the credit quality of the customer is assessed by taking into account its financial position, past experience and other factors. Individual risk limits are set in accordance and the utilization of credit limits is regularly monitored.

For banks, the ratings of the independent rating institutions are taken into consideration.

Same credit risk management principles are used for the management of the financial assets. Investments are made to instruments with highest liquidity and credit note of the company of transaction is taken into consideration.

**Foreign exchange risk**

Since the Group operates in a diverse geographical area, operations are performed using multiple currencies. Therefore, foreign exchange risk is one of the most significant financial risks that the Group is exposed to.

Trade relations between the Company and its subsidiaries are structured within the framework of relevant legislations and managed centrally by subsidiaries' functional currencies. Thus, foreign currency risk born by the subsidiaries is minimized.

Foreign exchange risk is followed based on functional currency of each subsidiary. It is aimed to set the ratio of foreign exchange risk position over equity at a predetermined interval.

The main principle of foreign currency risk management is to minimize the impact of foreign exchange fluctuations by maintaining foreign exchange asset position close to zero.

Inter balance sheet methods are preferred for the management of foreign currency risk as in other risk items. However, when necessary, derivative instruments are also used for maintaining foreign currency position at a predetermined level.

*Foreign currency hedge of net investments in foreign operations*

The Group designated some portion of the Euro dominated bank loans as a hedging instrument in order to hedge the foreign currency risk arisen from the translation of net assets of part of the subsidiaries operating in Europe from Euro to Turkish Lira. Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognized in equity in foreign currency hedge of net investments in foreign operations fund in order to net off the increment value fund arisen from the translation of the net assets of investments in foreign operations. As of March 31, 2015 a portion of bank borrowings amounting to EUR 150,000,000 (before tax) was designated as a net investment hedging instrument (December 31, 2014: EUR 150,000,000).
