### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE PERIODS ENDED SEPTEMBER 30, 2022 AND 2021

(Amounts expressed in thousands of Turkish Lira (“TRY”) unless otherwise indicated.)

#### NOTE 2 – BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

##### 2.1 Basis of presentation

###### Financial reporting standards

The condensed consolidated financial statements of the Group have been prepared in accordance with the Turkish Financial Reporting Standards, (“TFRS”) and interpretations as adopted in line with international standards by the Public Oversight Accounting and Auditing Standards Authority of Turkey (“POA”) and in line with the communiqué numbered II-14.1 “Communiqué on the Principles of Financial Reporting In Capital Markets” (“the Communiqué”) announced by the Capital Markets Board of Turkey (“CMB”) on June 13, 2013 which is published on Official Gazette numbered 28676. TFRS are updated in harmony with the changes and updates in International Financial and Accounting Standards (“IFRS”) by the communiqués announced by the POA.

The condensed interim consolidated financial statements are presented in accordance with “Announcement regarding with TAS Taxonomy” which was published on April 15, 2019 by POA and the format and mandatory information recommended by CMB.

The Group prepared its condensed consolidated interim financial statements for the period ended June 30, 2022 in accordance with TAS 34 “Interim Reporting” standard. Interim condensed consolidated financial statements do not include all the information required for the annual financial statements and therefore they should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2021.

POA made an announcement on January 20, 2022 in order to eliminate the hesitations about for the entities which apply Turkish Financial Reporting Standards (“TFRS”) will apply TAS 29, “Financial Reporting in Hyperinflationary Economies” (IAS 29 Financial Reporting in Hyperinflationary Economies) or not for the year ended 31 December 2021. In accordance with the announcement, companies that apply TFRS should not adjust financial statements for TAS 29 - Financial Reporting in Hyperinflationary Economies, Afterwards, no new statement was made by the POA about the TMS 29 application. As of the preparation date of the consolidated financial statements, POA did not make an additional announcement and no adjustment was made to the consolidated financial statements in accordance with TAS 29.

Foreign subsidiaries have prepared their statutory financial statements in accordance with the related local laws and regulations. Consolidated financial statements have been prepared under the historical cost convention except for the derivative instruments financial assets presented at fair values and the differences between carrying value and fair value of tangible and intangible assets arising from business combinations.

###### New and amended standards and interpretations

The accounting policies adopted in preparation of the condensed interim consolidated financial statements as at September 30, 2022 are consistent with those of the previous financial year, except for the adoption of new and amended Turkish Accounting Standards (“TAS”)/TFRS and IFRIC interpretations effective as of January 1, 2022. The effects of these standards and interpretations on the Group’s financial position and performance have been disclosed in the related paragraphs.

The Group's operations in Ukraine accounts for approximately 0.1% of the Group's net revenue and total assets for the period ended March 31, 2022. With the start of the Russia-Ukraine war on February 24, 2022, uncertainties regarding the Group's activities in Ukraine emerged, and as of September 30, 2022, the Group’s operations continue in Kiev, where Beko Ukraine is heavily active. However, since Ukraine operations are immaterial in terms of condensed consolidated financial statements, this do not have any impact on the Group’s going concern.

### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE PERIODS ENDED SEPTEMBER 30, 2022 AND 2021

(Amounts expressed in thousands of Turkish Lira (“TRY”) unless otherwise indicated.)

#### NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- a) *Standards, amendments, and interpretations applicable as of 30 September 2022:*
- **Amendments to IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform Phase 2 (effective from annual periods beginning on or after 1 January 2021);** The Phase 2 amendments address issues that arise from the implementation of the reforms, including the replacement of one benchmark with an alternative one. The Phase 2 amendments provide additional temporary reliefs from applying specific IAS 39 and IFRS 9 hedge accounting requirements to hedging relationships directly affected by IBOR reform.
  - **Amendments to IFRS 4 Insurance Contracts – deferral of IFRS 9 (effective from annual periods beginning on or after 1 January 2021);** These amendments defer the date of application of IFRS 17 by two years to 1 January 2023 and change the fixed date of the temporary exemption in IFRS 4 from applying IFRS 9, Financial instrument until 1 January 2023.
  - **Amendment to IFRS 16, ‘Leases’ – Covid-19 related rent concessions Extension of the practical expedient (effective 1 April 2021);** As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. In May 2020, the IASB published an amendment to IFRS 16 that provided an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. On 31 March 2021, the IASB published an additional amendment to extend the date of the practical expedient from 30 June 2021 to 30 June 2022. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.
  - **A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16;** effective from annual periods beginning on or after 1 January 2022.
    - **Amendments to IFRS 3, ‘Business combinations’** update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
    - **Amendments to IAS 16, ‘Property, plant and equipment’** prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.
    - **Amendments to IAS 37, ‘Provisions, contingent liabilities and contingent assets’** specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, ‘First-time Adoption of IFRS’, IFRS 9, ‘Financial Instruments’, IAS 41, ‘Agriculture’ and the Illustrative Examples accompanying IFRS 16, ‘Leases’.

(Amounts expressed in thousands of Turkish Lira (“TRY”) unless otherwise indicated.)

#### NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- b) *Standards, amendments, and interpretations that are issued but not effective as of 30 September 2022:*
- **Amendments to IAS 1, Presentation of financial statements’ on classification of liabilities;** effective date deferred until accounting periods starting not earlier than 1 January 2024. These narrow-scope amendments to IAS 1, ‘Presentation of financial statements’, clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the ‘settlement’ of a liability.
  - **Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8;** effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.
  - **Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single transaction;** effective from annual periods beginning on or after 1 January 2023. These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.
  - **IFRS 17, ‘Insurance Contracts’, as amended in December 2021;** effective from annual periods beginning on or after 1 January 2023. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

#### **Functional and presentation currency**

Items included in the financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (‘the functional currency’). The condensed consolidated financial statements are presented in TRY, which is the functional currency of Arçelik and the presentation currency of the Group.

#### **Financial statements of subsidiaries operating in countries other than Turkey**

The Financial statements of subsidiaries operating in countries other than Turkey are compiled by the TAS/TFRS promulgated by the POA to reflect the proper presentation and content. Subsidiaries’ assets and liabilities are translated into TRY from the foreign exchange rate at the reporting date and income and expenses are translated into TRY at the average foreign exchange rate. Exchange differences arising from the translation of the opening net assets and differences between the average and balance sheet date rates are recognized in the “currency translation difference” under the use of equity.

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

As of September 30, 2022, the corporate tax rate is 23% in Turkey (December 31, 2021: 25%). Corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances.

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between their statement of financial position accounts prepared in accordance with TAS/IFRS promulgated by POA Financial Reporting Standards and their statutory financial statements. These temporary differences usually result from the recognition of revenue and expenses in different reporting periods for TAS/IFRS and Tax Laws.

The breakdown of cumulative temporary differences and the resulting deferred tax assets/liabilities provided using principal tax rates is as follows:

	Cumulative temporary differences		Deferred tax assets/ (liabilities)

**NOTE 27 – EARNINGS PER SHARE**

Earnings per share disclosed in the consolidated statements of income are determined by dividing the net income per share by the weighted average number of shares that have been outstanding during the year.

The Companies can increase their share capital by making a pro-rata distribution of shares (“bonus shares”) to existing shareholders from retained earnings. In earnings per share calculation, this bonus share issuance is accepted as shares issued. Hence, weighted average stock share, which is used in the calculation of earnings per share, is acquired by retrospective application of bonus share issue.

Earnings per share and dividends paid in terms of share groups are as follows:

NOTE 29 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Group’s activities expose it to a variety of financial risks, including the effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates. The Group’s overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

*Hedging operations and derivative instruments*

*Liquidity risk*

The risk of failure in settling financial liabilities is eliminated by managing the consolidated financial position statement and expected cash flows in harmony. In this context, the maturities of the financial liabilities are kept in line with the maturities of assets to eliminate any duration mismatch, to maintain short term liquidity with effective inventory term, trade receivables and trade payables term, net working capital objectives are set and consolidated statement of financial position ratios are aimed to be kept at particular levels.

Cash flow estimations for midterm and long-term liquidity management of the Group are made by taking into account financial market and sector dynamics and cash flow cycle is observed and is tested by various scenarios.

*Interest Rate Risk*

Changes in interest rates create significant risks over financial results with due to the impact on interest sensitive assets and liabilities. These exposures are managed by establishing a fixed-floating balance in the consolidated financial statements and balancing interest rate sensitive assets and maturity with inter balance sheet items and using derivative instruments when considered necessary.

In this context, matching of not only maturities of receivables and payables but also contractual repricing dates is crucial. In order to minimize the exposures to interest rate volatility, contractual repricing date of financial liabilities and receivables and “fixed interest/ floating interest”, “short-term/ long-term” balance within liabilities are structured coherently.

##### *Funding risk*

The ability to fund the existing and prospective debt requirements is managed by maintaining the availability of adequate committed funding lines from high quality lenders.

##### *Credit risk*

The Group is exposed to credit risk arising from receivables from credit financed sales and deposits with banks.

Credit risk of receivables from third parties is managed by securing receivables with collaterals covering receivables at the highest possible proportion. Methods used are as follows:

- Bank guarantees (guarantee letters, letter of credits etc.),
- Credit insurance (Global insurance policies, Eximbank and factoring insurance etc.),
- Mortgages,
- Cheques-notes negotiated.

In credit risk control, for the customers which are not secured with collaterals, the credit quality of the customer is assessed by taking into account its financial position, past experience and other factors. Individual risk limits are set in accordance and the utilization of credit limits is regularly monitored.

For banks, the ratings of the independent rating institutions are taken into consideration.

Same credit risk management principles are used for the management of the financial assets. Investments are made to instruments with highest liquidity and credit note of the company of transaction is taken into consideration.

#### NOTE 29 - FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)

The Group has applied the simplified approach stated in TFRS 9 for the calculation of expected credit loss provision for trade receivables. This approach allows expected credit loss provision for all trade receivables. In order to measure expected credit losses, the Group appropriately classified its trade receivables based on maturity and credit risk characteristics. The expected credit loss ratio for each class of trade receivables, which is grouped using past loan loss experiences and forward-looking macroeconomic indicators, is calculated and the expected credit loss provision has been calculated by multiplying the determined rate and totals of trade receivable.

Details of the calculation as of September 30, 2022 are as follows:

<b>September 30, 2022</b>	<b>Undue</b>	<b>Overdue 0-1 month</b>	<b>Overdue 1-3 months</b>	<b>Overdue more than 3 months</b>	<b>Total</b>

#### *Foreign exchange risk*

Since the Group operates in a diverse geographical area, operations are performed using multiple currencies. Therefore, foreign exchange risk is one of the most significant financial risks that the Group is exposed to.

Trade relations between the Company and its subsidiaries are structured within the framework of relevant legislations and managed centrally by subsidiaries' functional currencies. Thus, foreign currency risk born by the subsidiaries is minimized. It is aimed to set the ratio of foreign exchange risk position over equity at a predetermined interval.

The main principle of foreign currency risk management is to minimize the impact of foreign exchange fluctuations by maintaining foreign exchange asset position close to zero.

Inter balance sheet methods are preferred for the management of foreign currency risk as in other risk items. However, when necessary, derivative instruments are also used for maintaining foreign currency position at a predetermined level.

*Foreign currency hedge of net investments in foreign operations*

The Group designated some portion of the Euro dominated bonds issued and Ruble dominated contingent liabilities as a hedging instrument in order to hedge the foreign currency risk arisen from the translation of net assets of part of the subsidiaries operating in Europe and Russia from Euro and Ruble to Turkish Lira. Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognized in equity in foreign currency hedge of net investments in foreign operations fund in order to net off the increment value fund arisen from the translation of the net assets of investments in foreign operations. As of September 30, 2022, a portion of bank borrowings amounting to EUR 200,000,000 and contingent liabilities RUB 16,694,091,285 (before tax) was designated as a net investment hedging instrument (December 31, 2021: EUR 200,000,000).

**NOTE 30 – FINANCIAL INSTRUMENTS**

*Fair value of financial instruments*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The estimated fair values of financial instruments have been determined by the Group, using available market information and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realize in a current market exchange.

Following methods and assumptions were used to estimate the fair value of the financial instruments for which is practicable to estimate fair value:

*Financial assets*

The carrying values of financial assets including cash and cash equivalents which are accounted with their costs are estimated to be their fair values since they are short term.

The carrying values of trade receivables along with the related allowances for uncollectible are estimated to be their fair values.

*Financial liabilities*

The fair values of short-term financial liabilities and other financial liabilities are estimated to be their fair values since they are short term.

NOTE 30 – FINANCIAL INSTRUMENTS (Continued)

*Financial liabilities (continued)*

As of September 30, 2022, the carrying value and the fair value of the long-term borrowings, including the short-term portions, are equal to TRY 27,596,292 (December 31, 2021: TRY 20,890,874) (Note 7) and TRY 25,694,919 (December 31, 2021: TRY 21,853,025) respectively. Fair value is calculated by discounting the cash out flows regarding due dates of borrowings considering the changing country risk premium and changes in market interest rates.

**Fair value hierarchy table**

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets (unadjusted)

Level 2: Other valuation techniques includes direct or indirect observable inputs. The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates.

Level 3: Valuation techniques does not contain observable market inputs

Fair value hierarchy table as of September 30, 2022 is as follows:

<b>Financial assets carried at fair value in statement of financial position</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
Derivative instruments (assets) (Note 8)	-	63,145	-
Financial investments (Note 6)	26,885	2,559	884

**Financial liabilities carried at fair value in statement of financial position**

Derivative instruments (liabilities) (Note 8)	-	(357,678)	-
